PROJECTS

Car Card For Business ⬀   2025 Jan - 2025 Jan

Designed an **interactive car rental card interface** using **HTML and CSS** to enhance user engagement and streamline service selection for a business project. The cards featured **distinct sections for Sedans, SUVs, and Luxury vehicles**, each with custom icons, concise and persuasive descriptions, and a bold **"Learn More" call-to-action button**. Emphasized **user-centric design**, employing a visually appealing color scheme, responsive layout, and rounded edges to ensure accessibility and aesthetic balance, effectively showcasing the brand's offerings.

Personal | Profile ⬀   2025 Jan - 2025 Jan

Built a **personal profile card interface** using **HTML and CSS**, designed to showcase professional details and social links in a sleek and minimalist style. The project highlights a **clean layout** with a profile picture, location, and personalized tagline to create a professional yet approachable look. Integrated **interactive buttons** for platforms like GitHub, LinkedIn, and Twitter, ensuring seamless navigation for users. The design focuses on **accessibility and visual clarity**, utilizing a dark theme, contrasting elements, and responsive components to cater to various devices and audiences.

WORK EXPERIENCE

Freelance Front-End Developer

Freelance   2024 - <

Proven experience delivering high-quality web solutions for clients across diverse industries. Specialize in creating **responsive, visually appealing, and user-friendly interfaces** using **HTML, CSS, and JavaScript**. Collaborated with clients to transform their requirements into functional, efficient designs while meeting tight deadlines. Demonstrated strong skills in **project management, communication, and problem-solving**, ensuring satisfaction and repeat collaborations. Skilled at building projects from scratch or optimizing existing code for improved performance and usability.

EDUCATION

Centurion University Bhubaneswar, Odisha

Bachelor Of Technology (IT) - CGPA:7.9   2021 Oct - 2025 May

Adopted a self-paced, hands-on learning approach to mastering front-end development concepts. Focused on building real-world projects to strengthen problem-solving skills and practical knowledge. Utilized resources like **online coding platforms, interactive tutorials, and peer collaboration** to enhance understanding. Prioritized **CSS styling, responsive design**, and user-centered interfaces to create visually appealing and functional web applications.
